CNC Swiss Setup Technician

Murphy Machine Products - Wood Dale, IL - Full Time

About us

Delva Tool & Machine (DTM) and its 6 locations specialize in precision machining, fabrication, and assembly highly engineered components. With over 175 years of combined experience, 300,000 sq. ft. of floor space, 250 CNC machines and 350 talented employees between 6 locations across the United States and Canada, we leverage our combined expertise and state of the art CNC machining capabilities to deliver quality machined parts to customers all across the globe. Our primary commitment is to provide our customers with a quality product, on-time delivery, and competitive pricing.

Core Values

- **Relentlessly Driven to Excel** – We take pride in mastering our craft, pushing ourselves to be the best, and constantly improving. “Good enough” is never enough.
- **Tech-Forward Problem-Solvers** – We embrace challenges with a solution-oriented mindset, thinking critically and adapting quickly to get the job done. We seek out and leverage the best technology and processes, appropriately automating to be more agile and lean.
- **Accountable & Dependable** – We take ownership of our work, meet deadlines, and follow through on our commitment; no excuses and no self-victimizing.
- **Team-First Mentality** – We collaborate, communicate, and support each other, knowing that success comes from effective collaboration.
- **Integrity in Everything** – We do what’s right, even when no one is watching. Honesty, transparency, and respect guide our decisions.
